MEMORANDUM FOR: ^{Deputy} DIRECTOR, CENTRAL INTELLIGENCE AGENCY

Subject: Politico-Military Game on Berlin

1. Because of the urgency of the Berlin problem the Office of the Secretary of Defense is arranging a politico-military exercise under the direction of the Joint War Games Control Group, Joint Staff. The scheduled dates are 17-21 September 1962. Representatives of the White House staff, State Department, Department of Defense, US Information Agency, and Joint Staff are being invited to participate.

2. The exercise will use the technique of Red and Blue Senior Policy and Action level teams. The Seniors will, as before, meet daily for an hour to provide guidance for their respective teams. In order to provide a fuller and more authentic insight into the immediate problem, there will be one significant change. There will be a second Blue Action team at US EUCOM Headquarters to play in conjunction with the Washington Blue against the Washington Red team. This second Blue team will include representatives from EUCOM and, as feasible, from the State and CIA [redacted]

3. It would be a most significant contribution if you could participate on one of the Senior Policy teams. Since it would be beneficial to have another Central Intelligence Agency member on the opposite team, could you suggest one of your immediate assistants. For the two Action and Control teams, who will participate on a full-time basis throughout the week, three Central Intelligence Agency players are desired. The offices of the JWCGG in the Pentagon will be again used in order that each participant can be immediately reached by his office. It would be appreciated if the names of the players could be phoned to Colonel James Y. Adams of the Joint War Games Control Group (code 11 - 5-7683) as early as possible.

Remarks: Ray:

The A/DCI does not feel he can participate with the DCI away. Do we have to have five participants? After you get it worked out could we have a letter back to Gilpatric for the A/DCI's signature, telling him what we will do.
